First Annual Report.

Office of the Board of Commissioners for the Insane, }
Helena, Montana, December 1, 1892. }

TO HIS EXCELLENCY, JOSEPH K. TOOLE,
Governor of Montana :

The State Board of Commissioners for the Insane, in compliance with the requirements of law, respectfully submit this their First Annual Report for the fiscal year ending December 1, 1892.

The Insane Asylum, located at Warm Springs, State of Montana, is under the control of Drs. Mitchell and Mussigbrod. In the year 1891, in accordance with Section 8, of "An Act to provide for the care and keeping of the Insane," the Governor of the State of Montana advertised by bids for keeping the Insane of the State.

At a special meeting of the Board of Commissioners for the Insane, held on the 3d day of April, 1891, proposals, transmitted to said Board, were canvassed by them, and the bid furnished by Drs. Mitchell and Mussigbrod accepted.

A contract for the payment of \$1.00 per capita per day was entered into with the above named parties, and a bond in the sum of \$50,000 given for the faithful performance of the terms of the contract; all of which was done and performed in the month of April, 1891.

The facts which influenced the Board to decide in favor of the bid furnished by Drs. Mitchell and Mussigbrod are as follows:

That Drs. Armstead H. Mitchell and Charles F. Mussigbrod, who have kept, maintained and cared for the insane of Montana for fourteen years prior to the adoption of the contract above named, at Warm Springs, county of Deer Lodge, State of Montana, have great facilities and natural advantages for the care and keeping of the insane.

They have suitable brick buildings, provided with improvements

and conveniences, including steam heat. The premises are provided with two plunge baths, bowling alley, tennis and base ball grounds, a grove with dancing pavilion, swings, etc., all of which have been provided for the use of the patients.

The cost of the care, custody, keeping, nursing, medical attendance and clothing of the insane was, prior to the adoption of the above mentioned contract, \$8.00 per capita, per week, which money was paid by the State; whereas the adoption of the contract, which specified the payment of \$7.00 per capita, per week, would lessen the expense \$1.00 per week, making a difference of \$52.00 per year for each patient.

As the State was not in a position at that time to procure other person or persons to care for, maintain and keep persons adjudged insane in the State of Montana, at as low a rate as that offered by Drs. Mitchell and Mussigbrod, it was deemed advisable to accept the bid furnished by them.

Accordingly this was done, and a contract entered into for a period of three years, beginning April 3, 1891.

Warm Springs, which is the present location of the Insane Asylum, is situated about sixteen miles south of Deer Lodge, twenty-four miles north of Butte, and nine miles east of Anaconda, and is a station on the Montana Union Railway, having passenger trains running daily.

At the time of the adoption of the above described contract, there were 195 inmates in the Asylum, of whom 166 were males and 29 females. The number of patients admitted since the 3d day of April, 1891, up to and including the 1st day of December, 1892, was 126 males and 26 females; the number discharged, died and escaped was 95, besides 13 who were removed by their friends.

The whole number under treatment during the entire time from April 3, 1891, to December, 1, 1892, is 292 males and 55 females, making a total of 347. The number of patients under treatment on December 1, 1892, is 199 males and 40 females, making a total of 239, and showing an increase of 44 since April 3, 1891.

Of these 239 patients remaining in the Asylum on December 1, 1892, 15 are considered curable, 26 doubtful and 198 incurable. Of the whole number admitted since April 3, 1891, there have been discharged as recovered 38-15 per cent; while of the whole number treated there have been discharged as recovered 16-71 per cent.

Each month adds to the numbers treated in the Asylum and in a corresponding ratio the needs of the institution are increased. The percentage of recovery is necessarily low when it is considered how small a proportion of those admitted during the year belong to the curable class.

One of the greatest requirements to the restoration of the insane, is to provide them with suitable occupation ; or to so direct their minds to some useful employment that they may lose sight of their mental aberration. Very often the first indication toward recovery in the insane is the taking notice of what is going on around them, but their improvement becomes marked as soon as they can be induced to engage in some work.

Following are six tables, compiled by the contractors, relating to the patients confined in the Insane Asylum, and which set out facts as follows :

TABLE NO. 1.

Gives a condensed list, and furnishes an idea of the number of patients in the Asylum upon the adoption of the contract entered into between the State of Montana and Drs. Mitchell and Mussigbrod, the number who have entered, number discharged and number died since that date.

TABLE NO. 2.

Gives a classification of the mental disorders now existing in the Asylum.

TABLE NO. 3.

Shows the County in which each patient resided previous to the date of his admission to the Asylum. From this table it will be seen that five of the patients were transmitted from the State Penitentiary at Deer Lodge.

TABLE NO. 4.

Gives the birthplace of the patients confined in the Asylum.

TABLE NO. 5.

Gives the occupation of the patients previous to their confinement in the Insane Asylum.

TABLE NO. 6.

Shows the number of patients who have died in the Asylum since April 3, 1891; the date and cause of their death, and the length of time confined in the Asylum.

TABLES "A" AND "B."

In addition to the foregoing, relate to the expense incurred for the fiscal year ending December 1, 1892.

TABLE "A."

Shows the amount paid contractors monthly for the care and keeping of the Insane, and also for clothing and cash paid out to those who have been discharged; all of which relate to the fiscal year ending December 1, 1892.

TABLE "B."

Shows the expense incurred by the State Board of Commissioners for the Insane during the fiscal year ending December 1, 1892.

A reference to the records of the Insane Asylum reveals the following facts, from which we draw the conclusions which follow:

The expense for keeping and maintaining the patients and furnishing clothing and cash gratuity to those discharged, for the fiscal year 1890, amounted to the sum of \$78,910.11; whereas, the expense for the fiscal year ending December 1, 1892, amounts to \$83,184, showing an increase of over \$4,000 for the two years.

Reckoning on this basis it is safe to conclude that the expense for the fiscal year ending December 1, 1893, will fully amount to the

sum of \$90,000, and the expense for the fiscal year ending December 1, 1894, amount to \$100,000. We would therefore recommend the Legislative Assembly that they set apart an appropriation sufficient to cover the expense herein enumerated.

We would further state that the work of this Board being arduous, it being necessary to keep records concerning the patients, it is important that a clerk be employed to perform these duties. We would therefore request the Legislature that they appropriate the sum of \$1,200 per annum to pay for the employment of said services, and that the Board be authorized to employ such person.

In addition to the tables hereinbefore enumerated, there is one designated as "A Comparison Table."

Under date of October 14, 1892, a circular letter was transmitted to the Trustees or Directors of each State Insane Asylum in the United States, requesting them, if consistent with the duties of their office, to answer the questions following, and also to furnish this Board with a copy of their Report for the year 1891.

1. How many attendant physicians are employed daily in the insane asylum of your State?
2. What average number of patients can an attendant physician care for daily in your asylum, and at the same time secure the greatest benefit to the inmates?
3. What is the average number of inmates kept and maintained in each of your several wards?
4. What is the average cost daily of caring for and maintaining inmates at the asylum?

Replies were received from the larger part of these communications so sent, and the answers to the questions therein set out have been condensed into a table called "A Comparison Table." This said table shows the number of physicians employed daily in the Insane Asylums of each of the several States in the Union; the average number of patients cared for daily by one physician; total number of patients in the Institution; number of inmates in each ward; cost per capita per day; and place where the Asylum is situated.

Following is a statistical report prepared and transmitted by the Contractors of the Insane Asylum. This report contains tables as have been hereinabove described.

Respectfully submitted,

JOSEPH K. TOOLE,

Governor and President of the Board.

*Insane Asylum of the State of Montana,
Warm Springs, Mont., Nov. 29, 1892.* }

TO HIS EXCELLENCE, JOSEPH K. TOOLE,
Governor of Montana:

SIR : On April 3, 1891, there were 195 inmates of the asylum, 166 of whom were males, and 29 females. The number of admissions from April 3, 1891, to Dec. 1, 1892, were 126 males, and 26 females; and the number discharged, died and escaped were 95; 13 were removed by their friends. The whole number of patients under treatment during the period has been 347; 292 males and 55 females. The number under treatment on Dec. 1, 1892, are 199 males and 40 females, making a total of 239, and showing a net increase of 44 since April 3, 1891. Of the 239 patients remaining in the Asylum, 15 are considered curable, 26 doubtful, and 198 incurable. Of the whole number admitted since April 3, 1891, there was discharged as recovered 38.15 per cent, while of the whole number treated there was discharged as recovered 16.71 per cent.

I add the accompanying tables for your further consideration.

Very Respectfully,

A. G. WARREN, M. D.
